WANTED

Applicants in training school for nurses of Hazel Hawkin Memorial Hospital, Hollister, Calif. Course of study has been shortened and wages increased.

For detailed information apply to DOROTHY Q. DREW, Supt. of Nurses

## NEW EXCHANGE OPENS FRIDAY

The Tonopah-Divide Stock Exchange will open for business Friday evening when the public is invited to attend and witness the method of doing business through the direct channel of buyer and seller. The trading will not be limited to Tonopah and the Divide but will include the Goldfields and other issues in which anyone may be interested.

H. B. Chessher, president and manager has gone to considerable expense preparing a place where trading can be conveniently and expeditiously carried on, and has not spared a dollar where thought it was necessary to keep up to what the citizens of Tonopah would expect of an institution of this kind.

"Never before have we found the time so propitious and the public so anxious to try out our medium of trading and the satisfaction generally shown when a detailed explanation concerning our methods of operation is given fully convinces anyone that our efforts will accomplish excellent results for the investing element of Tonopah," explained Mr. Chessher today. "Promptly at 8 p. m. the auctioneer will start calling the stocks in alphabetical order taking them as they now appear on the San Francisco board; he will ask for bids and offers on each stock and as they are made the quotation will be marked opposite the name of the stock, and if a sale is made the auctioneer will announce and make a record of same, and will at that time call for a written confirmation from the buyer and seller, which sets forth that the buyer will deliver his money and the seller deliver his stock to our clearing house by 10 o'clock the following morning. By 11 o'clock of the same morning proper record will have been made and then the stock will be delivered to the buyer and the money to the seller. Our commission on the transaction will be 1 per cent of the money involved collected from each of the seller and buyer.

"Our clearing house will be conducted under the same rules and regulations as those now in force on the leading exchanges of the country. We have been fortunate in securing the services of Mr. Chas. C. Akin who was for a number of years cashier on the Los Angeles Stock Exchange and also cashier of the Los Angeles Stock Exchange Clearing House. Mr. Akin will be secretary of our exchange and have charge of our clearing house and bookkeeping department.

"It is our purpose to help in every way possible the upbuilding of Tonopah and Divide, as well as the various other districts in this part of Nevada, and shall at all times be willing to enter into any movement for the creating of a better knowledge of the wonderful mineral resources of Nye and Esmeralda counties among the eastern investing public. We contend that the largest percentage of development capital should come from east of the Mississippi river and believe that of the efforts of Tonopah should be spent in attracting new capital from that territory.

"Our exchange will be at the service of owners of properties in other mining districts where the stocks are not listed in San Francisco. There will be no fee for listing new stocks, but we must be assured by the backers of the companies that they will stand behind their stocks and make an active market for them, and at any time, in our estimation, they fail to do this, we will reserve the right to withdraw their name from our board. We shall at all times discourage future or short trading. It is our prime purpose to help build up the various mining districts of Nevada, and no one can convince me that selling stocks short or for future delivery, which the seller never owned, and receiving money for purchases that are not actually made through the transfer of any stock is for the benefit of any mining camp. Of course it is a legitimate transaction among 'bears' and professional traders as long as a broker does not 'bucket' the order, but I fail to see any assistance rendered the development of a mining property."

Nonessential Industry.

Our idea of a nonessential industry is tracing the pedigree of a dog.—Dallas News.

## NO JOY RIDING IN HONOLULU

(Correspondence Associated Press)

HONOLULU, T. H., July 25.—Joy riding is under the ban in Honolulu and there will be no more frivolous motoring until the middle of August, when the arrival of a tank steamer from California is expected to end the gasoline famine.

The gasoline supply here has become so low that those dealers who still have some in their storage tanks are selling only to those who require it for strictly business purposes.

Multi-millionaire sugar barons and dock workers are now seen partners in the street cars and the elderly old one-horse cabs of King Kalanika's reign have been resurrected for service.

## Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

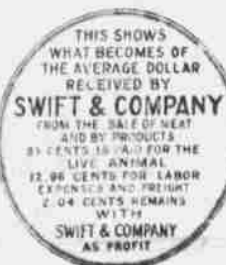

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life-long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?

Let us send you a Swift "Dollar." It will interest you.

## Blow off the foam and drink her down.

## Bebe Syrup

The brew you make from Bebe Syrup sure does hit the spot. It's the real stuff made from hops and malt.

Follow the directions on the can. Do not use extra quantities of Bebe Syrup as that would produce a drink containing more alcohol than the dry laws permit.

Every half pound of Bebe Syrup added to 5 gallons of water produces 1/2% alcoholic strength by volume.

It's easy to make. There's no skill or apparatus required.

2 1/2 lb. can \$1.75. At grocers and druggists.
